Project Name	Health360: Comprehensive Healthcare Risk & Disease Analytics
Maximum Marks	2 Marks

Customer Problem Statement Template:

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love.

A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

I am	Describe customer with 3-4 key characteristics - *who are they?*	Describe the customer and their attributes here
I'm trying to	*List their outcome or "job" the care about - what are they trying to achieve?*	List the thing they are trying to achieve here
but	Describe what problems or barriers stand in the way – *what bothers them most?*	Describe the problems or barriers that get in the way here
because	Enter the "root cause" of why the problem or barrier exists – *what needs to be solved?*	Describe the reason the problems or barriers exist
which makes me feel	Describe the emotions from the customer's point of view – *how does it impact them emotionally?*	Describe the emotions the result from experiencing the problems or barriers

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	a healthcare data analyst / clinical researcher / patient monitoring coordinator	analyze patient health metrics (BMI, blood pressure, glucose, and lifestyle habits) to identify and predict chronic disease risks	complex healthcare datasets with 5,000+ unorganized records make it difficult to visualize key drivers of diabetes and heart disease quickly	raw medical spreadsheets lack integrated visual dashboards, clear age-group breakdowns, and lifestyle risk correlation matrices	overwhelmed when attempting to extract actionable clinical insights and present clear preventative strategies to stakeholders
