| **Project Name** | Health360: Comprehensive Healthcare Risk & Disease Analytics |
| **Maximum Marks** | 2 Marks |

## Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

| **Phase of Journey** | **Stage 1** | **Stage 2** | **Stage 3** |
|---|---|---|---|
| **Actions** *What does the customer do?* | • Registers profile on Health360 platform.<br>• Connects IoT wearables/sensors.<br>• Completes baseline clinical health assessment | • Wears IoT sensors daily<br>• Tracks vital signs (HR, SpO2, BP) on mobile dashboard.<br>• Receives automated anomaly notifications. | • Consults cardiologist upon alert.<br>• Follows prescribed medication and exercise plan.<br>• Reviews monthly health progress reports. |
| **Touchpoint** *What part of the service do they interact with?* | • Mobile App Onboarding Screen<br>• Bluetooth Sensor Pairing UI<br>• User Profile Settings | • Live Vitals Monitoring Dashboard<br>• Automated Alert SMS / Push Notifications<br>• Snowflake Data Pipeline | • Doctor Consultation Portal<br>• Prescribed Treatment Plan View<br>• Downloadable Health Summary PDF |
| **Customer Thought** *What is the customer thinking?* | • "How easy is it to sync my medical devices?"<br>• "Is my personal health data securely encrypted?" | • "Are my vitals normal today?"<br>• "Why did I receive an alert about my blood pressure?" | • "How effective is my new fitness routine?"<br>• "Will this preventive care lower my long-term risks?" |
| **Customer Feeling** *What is the customer feeling?* | Curious, slightly apprehensive about tech setup. | Reassured by continuous tracking, alert when anomalies occur. | Empowered, confident, and motivated to maintain healthy habits. |

| | | | |
|---|---|---|---|
| **Process Ownership**<br>*Who is in the lead on this?* | Patient / Onboarding Support Team | IoT Gateway & Automated Snowflake Analytics Engine | Lead Cardiologist / Clinical Care Team |
| **Opportunities**<br><br>*How can we improve this stage?* | • Simplify IoT pairing with one-click QR code scanning.<br>• Add interactive guided setup tutorials. | • Reduce false-positive alerts using advanced ML filtering.<br>• Provide instant AI-driven vital sign explanations. | • Integrate direct in-app video telemedicine consultations.<br>• Offer gamified rewards for meeting exercise milestones. |
