Project Demo Planning

Date: 20 October 2026
Team ID: En25cs3010891
Project Name: Health360: Comprehensive Healthcare Risk & Disease Analytics
Maximum Marks: 1 Mark

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

Demo Schedule & Section Breakdown:

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Overview of healthcare challenges, reactive care limitations, and project objectives.	2 mins	Member 1 (Team Leader)
2	Solution Architecture	Presentation of the 5-layer IoT-Cloud-AI architecture and Snowflake data pipeline.	2 mins	Member 1
3	Data Engineering & Prep	Demonstration of raw data ingestion, null imputation, deduplication, and staging tables.	3 mins	Member 1
4	Disease Analytics & ML	Explanation of composite risk scoring (0-100 scale), risk tiering, and chronic condition metrics.	3 mins	Member 1
5	Tableau Dashboards	Live walkthrough of the 8 Tableau	4 mins	Member 1

		visualizations, interactive filters, and story points.		
6	Performance & Q&A	Review of Snowflake query performance (<0.38s), quality checklist, and panel Q&A.	1 min	Member 1

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Hook the panel by addressing chronic disease burdens and the transition to preventive care.
2	Solution Overview	Highlight the integration of Snowflake data warehouse, Python ETL, and Tableau analytics.
3	Live Feature Demonstration	Showcase real-time filtering, risk tier distribution charts, and clinical analytics.
4	Q&A Session	Address panelist questions regarding data pipelines, scalability, and clinical applications.
